A massive help to me in this course, thanks a lot!

I don't think this TA understand the course material as well because the discussion was nothing help!

Kurtis is such a nice and approachable person. I ended up getting a research position with him and every interaction I had was light, informative, and so helpful. He would help reinforce good ideas I had as well as being able to correct and guide my thoughts when I had something wrong. Overall a great TA whose demeanor encouraged any and all questions but who has the knowledge to back it up.
